

BUGGIES, MULES + SITE VEHICLES

RELIABLE ON SITE TRANSPORTATION
FOR EVENTS

RELIABLE TRANSPORTATION SOLUTIONS FOR EVENT SITES

ON-SITE MOBILITY. PROFESSIONALLY MANAGED.

Large-scale event sites demand reliable, flexible, and safe transportation. At Evolution Site Services, we provide a full fleet of vehicles designed to move people, equipment, and supplies with speed and efficiency.

From golf buggies for VIP and guest transfers to off-road mules, cargo buggies, and paramedic units, our range covers every site transport requirement.

We also offer electric bikes and larger site cargo vehicles for eco-friendly mobility and heavy-duty support.

With offices in Dubai, Abu Dhabi, and Riyadh, our teams deliver, maintain, and support vehicles across the UAE and Saudi Arabia — giving you the confidence that site transport is one less thing to worry about.

— Full fleet of vehicles for every site need

— Golf buggies, mules, cargo + paramedic units

— Eco-friendly e-bikes + heavy-duty cargo vehicles

— Delivered, maintained + supported by expert crew

— Coverage across UAE + Saudi Arabia from local offices

Complete Transportation Solutions for Your Event Site - Moving people and equipment safely, efficiently, and reliably.

OUR APPROACH

At Evolution Site Services, planning and health and safety are built into every stage of our operations. From the earliest design layouts to on-site execution, we carry out detailed risk assessments, method statements, and scheduling to ensure safe, seamless delivery.

Our teams work to strict protocols, supported by trained supervisors and professional operators who maintain compliance with both local regulations and international best practice.

We are proud to hold ISO 9001, 14001, and 45001 certifications, reflecting our commitment to quality management, environmental responsibility, and occupational health and safety. These standards guide the way we plan, monitor, and deliver every project, ensuring efficiency, sustainability, and the highest level of protection for our clients, teams, and the public.

By combining thorough planning with accredited systems, we provide the assurance that every site, installation, and operation is executed to the highest professional standard.

COMPLETE EVENT MOBILITY MANAGEMENT

From the first vehicle arriving on site to the last departure, our team manages every aspect of event mobility. Coordinating routes, traffic flow, and scheduling ensures smooth transport for guests, staff, and equipment at all times.

HEALTH + SAFETY

Safety underpins every part of our work. From delivery to final removal, all equipment is managed by trained crews following clear procedures, ensuring controlled, efficient, and secure operations across every site.

SITE VEHICLES FOR EVERY REQUIREMENT

Our fleet of golf buggies, off-road vehicles, and specialist site transport solutions ensures that every movement across your event site is covered.

Whether it's transporting VIPs, shifting equipment, or responding to emergencies, we provide the right vehicle for the job — delivered, maintained, and supported by our experienced team.

Versatile passenger vehicles available in 2, 4, 6, and 8-seater options, perfect for moving staff, VIPs, and guests across large event sites.

Comfortable and efficient, they provide smooth transport for both front-of-house and backstage operations. Delivered clean, serviced, and fully supported, our golf buggies keep people moving with ease.

GOLF BUGGIES

Our mules and off-road buggies are powerful transport solutions designed for challenging event environments.

With enhanced suspension, high load capacity, and rugged reliability, they handle rough ground and heavy equipment with ease. Ideal for festivals, large-scale builds, and extended site operations, they keep crews and supplies moving efficiently.

MULES / OFF-ROAD BUGGIES

From guests to gear, our vehicles keep your event site moving.

Purpose-built vehicles equipped with stretcher platforms, medical storage, and seating for first aid staff.

Designed for quick access across large or restricted sites, they ensure medical teams can respond rapidly during emergencies. Reliable and fully supported, these buggies provide organisers with peace of mind that help is always close at hand.

PARAMEDIC BUGGIES

From compact cargo buggies with rear beds to larger utility vehicles with high payload capacity, we provide practical solutions for on-site logistics.

These vehicles are built to move tools, technical kit, and bulky equipment quickly and safely across event sites. Robust, reliable, and fully supported, they keep daily operations and large-scale builds running smoothly from start to finish.

CARGO BUGGIES + VEHICLES

Lightweight, eco-friendly transport ideal for staff, security, and technical teams working across large event sites.

Compact and easy to manoeuvre, they provide fast access between zones while reducing congestion and emissions. With rechargeable batteries and low running costs, e-bikes are a practical, sustainable alternative to motorised site vehicles.

ELECTRIC BIKES

BUGGIES

RELIABLE VIP, GUEST + STAFF TRANSPORT

Our fleet of golf buggies provides safe, comfortable, and efficient transport across event sites of every scale. Available in 2, 4, 6, and 8-seater configurations, they are ideal for moving staff, VIPs, and guests quickly and easily.

Each buggy is delivered in pristine condition, maintained throughout your event, and collected by our trained team after de-rig.

With optional branding packages, golf buggies can also be customised to match your event identity, ensuring a professional and cohesive look.

– Available in 2, 4, 6 + 8-seater options

– Safe, comfortable + efficient site transport

– Perfect for staff, VIP + guest movement

– Delivered pristine, maintained throughout your event

– Optional branding for a professional, cohesive look

2-SEATER ELECTRIC BUGGY WITH CARGO SS-VGC2SC-T01

Seating Capacity:	2
Weight:	300 Kg
Cargo Capacity:	150 - 200 Kg
Range:	60-70 Km
Max Speed:	25 kph
Power Requirements:	13A UK Socket
Charge Time	6-8 Hours
Dimensions:	Length: 2.85m Width: 1.5m Height: 2m
Custom branding	Available
Comfort & Use:	Compact for tight access
Eco & Efficiency:	Zero emissions

4-SEATER ELECTRIC BUGGY SS-VGC4ST-T01

Seating Capacity:	4
Weight:	300 Kg
Cargo Capacity:	4pax
Range:	60-70 Km
Max Speed:	25kph
Power Requirements:	13A UK Socket
Charge Time	6-8 Hours
Dimensions:	Length: 3.6m Width: 1.5m Height: 2m
Custom branding	Available
Comfort & Use:	Quick crew movement
Eco & Efficiency:	Zero emissions

6-SEATER ELECTRIC BUGGY SS-VGC6ST-T01

Seating Capacity:	6
Weight:	500 Kg
Cargo Capacity:	30 Kg
Range:	6pax
Max Speed:	25kph
Power Requirements:	13A UK Socket
Charge Time	4-6 Hours
Dimensions:	Length: 3.8m Width: 1.5m Height: 2m
Custom branding	Available
Comfort & Use:	Spacious group mobility
Eco & Efficiency:	Zero emissions

6 SEATER ELECTRIC BUGGY
SS-VGC6ST-T02

Seating Capacity:	6
Weight:	400 Kg
Cargo Capacity:	6pax
Range:	60-70 Km
Max Speed:	25kph
Power Requirements:	13A UK Socket
Charge Time	4-6 Hours
Dimensions:	Length: 3.75m Width: 1.3m Height 1.9 m
Custom branding	Available
Comfort & Use:	Spacious group mobility
Eco & Efficiency:	Zero emissions

CUSTOM BRANDING

BRANDED BUGGIES TO MATCH YOUR EVENT IDENTITY

Your event branding doesn’t stop at the stage or signage — it extends to every guest touchpoint.

Our golf buggies and site vehicles can be custom branded with your event logo, sponsors, or campaign graphics, creating a professional and cohesive look across your site.

To make the process easy, we provide ready-to-use artwork templates for every vehicle type. Simply drop your designs into the layout and send it back to us. We’ll handle the rest, delivering your buggies to site fully branded and event-ready.

Whether you’re looking to promote sponsors, elevate the guest experience, or unify your site visuals, our branded vehicles help you stand out while keeping your site moving.

– Ready-to-use artwork templates provided

– Full or partial wrap options available

– Delivered to site branded and ready for use

– Boosts visibility for event sponsors + partners

– Logos, sponsor graphics + event campaigns

CARGO BUGGIES

EFFICIENT ON SITE TRANSPORT + EQUIPMENT MOVEMENT

Our cargo buggies are compact utility vehicles designed for moving equipment, tools, and supplies quickly across event sites. With rear cargo beds and sturdy construction, they provide a practical solution for day-to-day site operations where speed and flexibility are essential.

Ideal for backstage areas, technical zones, and build/de-rig operations, cargo buggies reduce manual handling and keep your event running smoothly.

Delivered clean and serviced, they are supported by our onsite maintenance team throughout your event.

- Compact utility vehicles with rear cargo beds
- Practical solution for tools, kit + supplies
- Ideal for backstage, technical + build areas
- Reduce manual handling + improve efficiency
- Delivered serviced + supported on-site

2-SEATER LONG CARGO ELECTRIC BUGGY SS-VGC2SL-T02

Seating Capacity:	2
Weight:	400 Kg
Cargo Capacity:	500 - 600 Kg
Range:	60-70 Km
Max Speed:	25kph
Power Requirements:	13A UK Socket
Charge Time	6-8 Hours
Dimensions:	Length: 3.4m Width: 1.2m Height: 1.85m
Custom branding	Available
Comfort & Use:	Optimised for equipment moves
Eco & Efficiency:	Zero emissions

2-SEATER CARGO BUGGY SS-VGC2SL-T01

Seating Capacity:	2
Weight:	500 Kg
Cargo Capacity:	30 Kg
Range:	30-50 Km
Max Speed:	25kph
Power Requirements:	13A UK Socket
Charge Time	6-8 Hours
Dimensions:	Length: 4.4m Width: 2.3m Height: 1.8m
Custom branding	Available
Comfort & Use:	Essential for equipment runs
Eco & Efficiency:	Zero emissions

OFFROAD BUGGIES

VERSATILE SITE TRANSPORT

Built for demanding terrain and large outdoor event sites, our mules and off-road buggies provide powerful and versatile transport solutions.

With greater load capacity and enhanced suspension, they are designed to handle rough ground, heavy equipment, and extended use during build, live days, and de-rig.

These vehicles are ideal for moving supplies, site crew, and technical equipment in areas that standard golf or cargo buggies can't reach. Delivered fully serviced and supported by our maintenance teams, they are dependable workhorses for any large-scale project.

- Built for rough terrain + heavy loads
- Dependable workhorses for large-scale projects
- Enhanced suspension for demanding ground
- Ideal for crew, supplies + technical kit
- Delivered serviced + supported for reliability

2 SEATER KAWASAKI MULE WITH CARGO SS-VML2SC-T01

Seating Capacity:	2
Weight:	680 Kg
Cargo Capacity:	250 - 300 KG
Range:	50 Km
Max Speed:	25kph
Propulsion type:	Combustion Engine
Dimensions:	Length: 2.85m Width: 1.5m Height: 2m
Custom branding	Available
Comfort & Use:	Perfect for off-road, rough terrain, events sites

2-SEATER LIFTED BUGGY WITH CARGO SS-VGC2SC-T02

Seating Capacity:	2
Weight:	590 Kg
Cargo Capacity:	250 - 300 Kg
Range:	60-70 Km
Max Speed:	25kph
Power Requirements:	13A UK Socket
Charge Time	4-6 Hours
Dimensions:	Length: 3.6m Width: 1.5m Height: 2m
Custom branding	Available
Comfort & Use:	Perfect for off-road, rough terrain, events sites
Eco & Efficiency:	Zero emissions

4-SEATER LIFTED ELECTRIC BUGGY SS-VGC4ST-T02

Seating Capacity:	4
Weight:	590 Kg
Cargo Capacity:	4pax
Range:	60-70 Km
Max Speed:	25kph

Comfort & Use:	Perfect for off-road, rough terrain, events sites
Eco & Efficiency:	Zero emissions

PARAMEDIC BUGGIES

RAPID ON SITE MEDICAL RESPONSE

When every second counts, our paramedic buggies ensure medical teams can reach any part of your event site quickly and safely. Purpose-built for emergency response, these vehicles are fitted with stretcher platforms, medical storage, and seating for first aid staff.

Designed for use across large outdoor sites, festivals, sporting events, and venues with restricted vehicle access, paramedic buggies provide a vital lifeline during emergencies.

Delivered fully equipped and supported by our maintenance teams, they give organisers peace of mind that medical response is never delayed.

- Purpose-built paramedic buggies for emergencies
- Equipped with stretcher platforms + medical storage
- Fast, safe access across large + restricted sites
- Essential for festivals, sports + outdoor events
- Delivered fully equipped + maintained for reliability

AMBULANCE ELECTRIC BUGGY
SS-VGC2SA-T01

Patient Capacity:	2 + Patient
Weight:	369 Kg
Range:	60-70 Km
Max Speed:	25kph
Power Requirements:	13A UK Socket
Charge Time	4-6 Hours
Dimensions:	Length: 3.75m Width: 1.3m Height: 1.9m
Custom branding	Available
Comfort & Use:	Safe patient transfer
Eco & Efficiency:	Zero emissions

ELECTRIC BIKES + SCOOTERS

FLEXIBLE, ECO-FRIENDLY SITE TRANSPORT

Our electric bikes provide a fast, flexible, and eco-friendly transport solution for busy event sites. Compact and easy to manoeuvre, they allow staff to move quickly between zones without adding to vehicle congestion.

With rechargeable batteries and low running costs, e-bikes are perfect for daily staff use, security patrols, and technical teams who need to cover large areas efficiently.

Lightweight and durable, they are an excellent alternative to motorised buggies where space is tight or rapid movement is required.

- Fast, efficient movement across large sites
- Eco-friendly with rechargeable batteries
- Compact design ideal for tight spaces
- Low running costs + minimal congestion
- Perfect for staff, security + technical teams

ELECTRIC BIKE FITTED WITH OFF-ROAD TIRES **SS-VBKBK-T01**

Weight:	25 Kg
Range:	40-60 Km
Max Speed:	40kph
Power Requirements:	13A UK Socket
Charge Time	6-8 Hours
Dimensions:	Length: 2m Width: 0.6m Height: 1.1m
Charging Cable provided:	Y
Comfort & Use:	Perfect for off-road, rough terrain, events sites

RELIABLE VEHICLES BACKED BY EXPERT SUPPORT

EXPERT SUPPORT FOR SAFE + EFFICIENT SITE TRANSPORT

At Evolution Site Services, our role goes far beyond simply delivering buggies and site vehicles. Our experts work with you during the planning stage to design transport systems that move staff, VIPs, and equipment safely and efficiently across your site.

With decades of experience managing vehicle movements at large-scale events, our team understands how to balance guest transport with operational logistics. We help identify the right fleet mix, plan routes, and coordinate access to ensure smooth flow at every stage of your project.

By combining practical vehicles with expert planning, we provide solutions that reduce risks, cut congestion, and keep your event running to schedule. Whether for staff logistics or VIP movement, our support ensures that transport is one less thing to worry about.

- Vehicles delivered clean, fuelled/charged + event-ready
- Branding options applied before delivery where required
- On-site crews available for real-time support
- Rapid response to minimise downtime
- Flexible support tailored to site requirements

Delivered ready, maintained on-site, and supported every step of the way.

OUR CREWS + SUPPORT TEAMS

KEEPING OUR VEHICLES RUNNING. KEEPING YOUR EVENTS MOVING.

We know that the value of our vehicles comes from the people and systems that support them. Our trained crews handle delivery, positioning, and collection with precision, ensuring every vehicle arrives on time, ready to use, and maintained to the highest standards.

Throughout your event, our support teams remain on hand to provide servicing, repairs, and real-time assistance. From routine checks to rapid response call-outs, we keep your fleet operating smoothly, reducing downtime and giving you confidence that transport will never be a weak link in your site operations.

By combining reliable vehicles with dependable support, we offer a complete service from start to finish — one partner to deliver, maintain, and remove everything you need to keep your event moving.

MORE THAN TRANSPORT - COMPLETE SITE SUPPORT

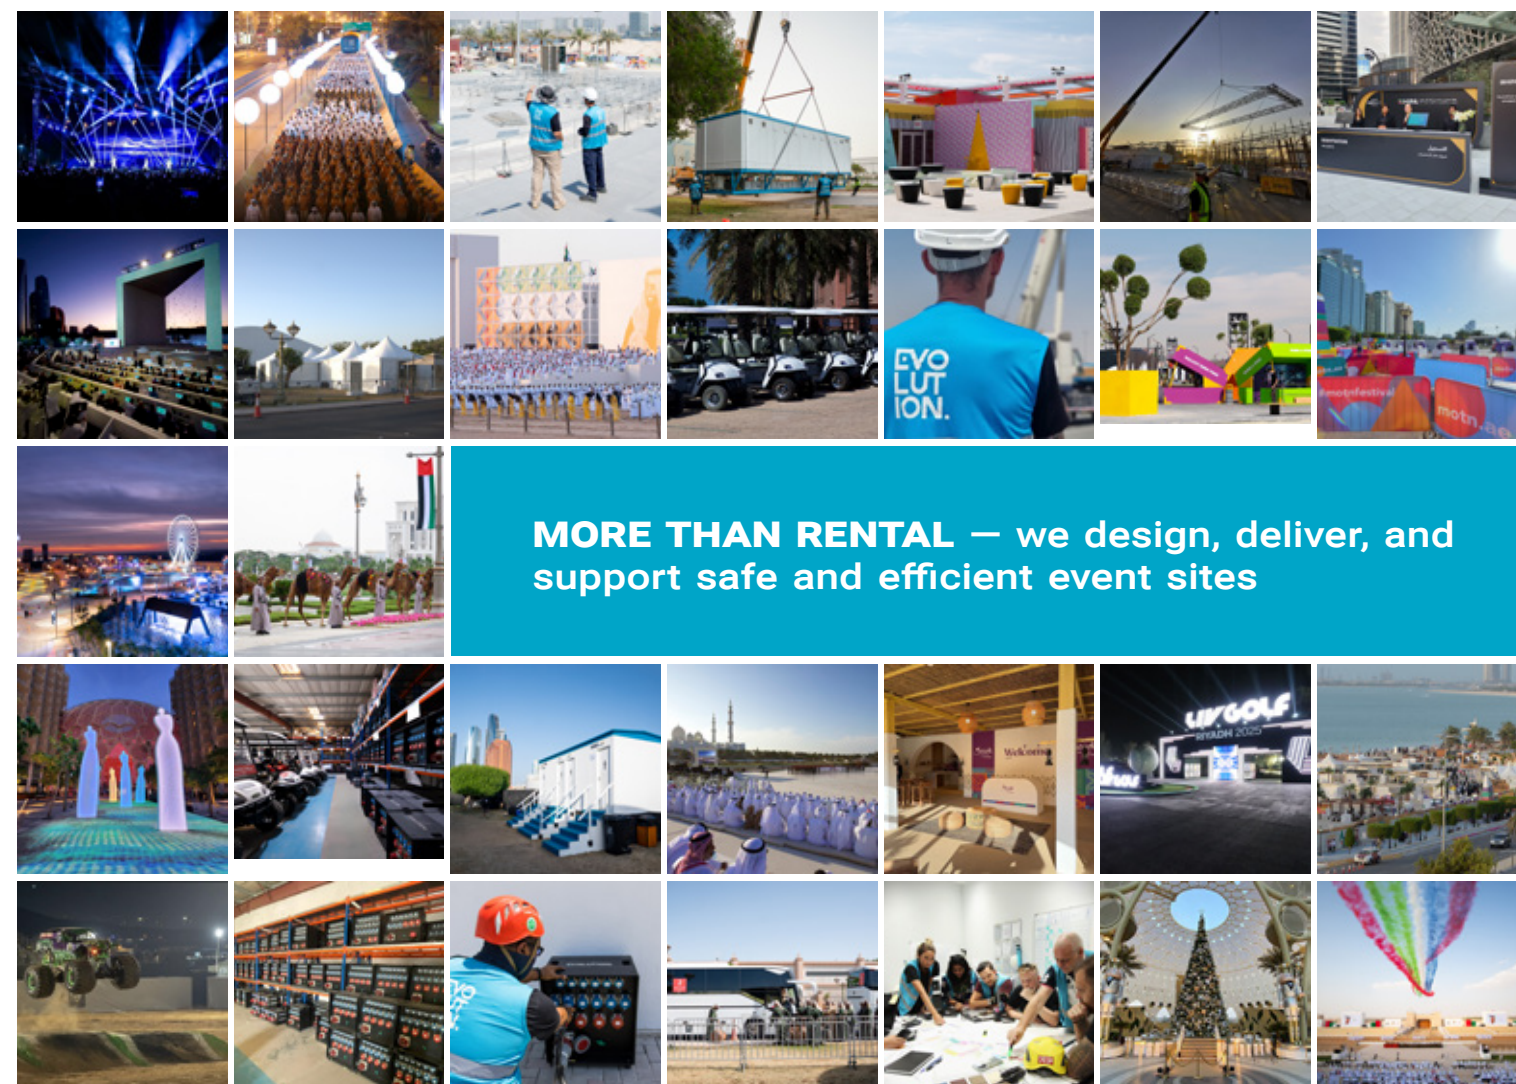

From transport to infrastructure, we supply the solutions for all your site requirements.

Buggies and site vehicles are just one part of the bigger picture. At Evolution Site Services, we deliver the core infrastructure that keeps event sites safe, functional, and efficient.

Alongside transport solutions, we provide cabins, ablution units, fencing, site furniture, site lighting, power distribution, and scenic build services, giving you the essentials every project relies on. We also supply comprehensive technical services — including lighting, audio, video, rigging, and special effects — ensuring your event is not only operational but also delivers an unforgettable audience experience.

By working with a single partner, you simplify operations, reduce the number of suppliers on-site, and ensure consistent quality across multiple aspects of your project. With Evolution, you gain both the practical site infrastructure and the technical expertise needed to bring your event to life.

MORE THAN RENTAL — we design, deliver, and support safe and efficient event sites

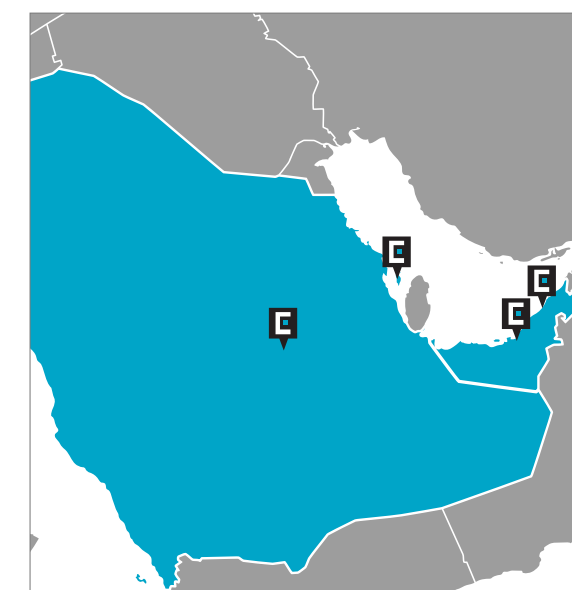

20 YEARS OF EXPERIENCE IN THE GCC EVENTS INDUSTRY

For more than two decades, Evolution Services has been delivering site infrastructure and support for some of the biggest events across the GCC.

From large-scale festivals and international exhibitions to high-profile government events, our team has built a reputation for reliability, professionalism, and attention to detail.

What sets us apart is our people.

Our crews, planners, and supervisors bring years of hands-on experience, ensuring every project is completed safely, efficiently, and to the highest standards.

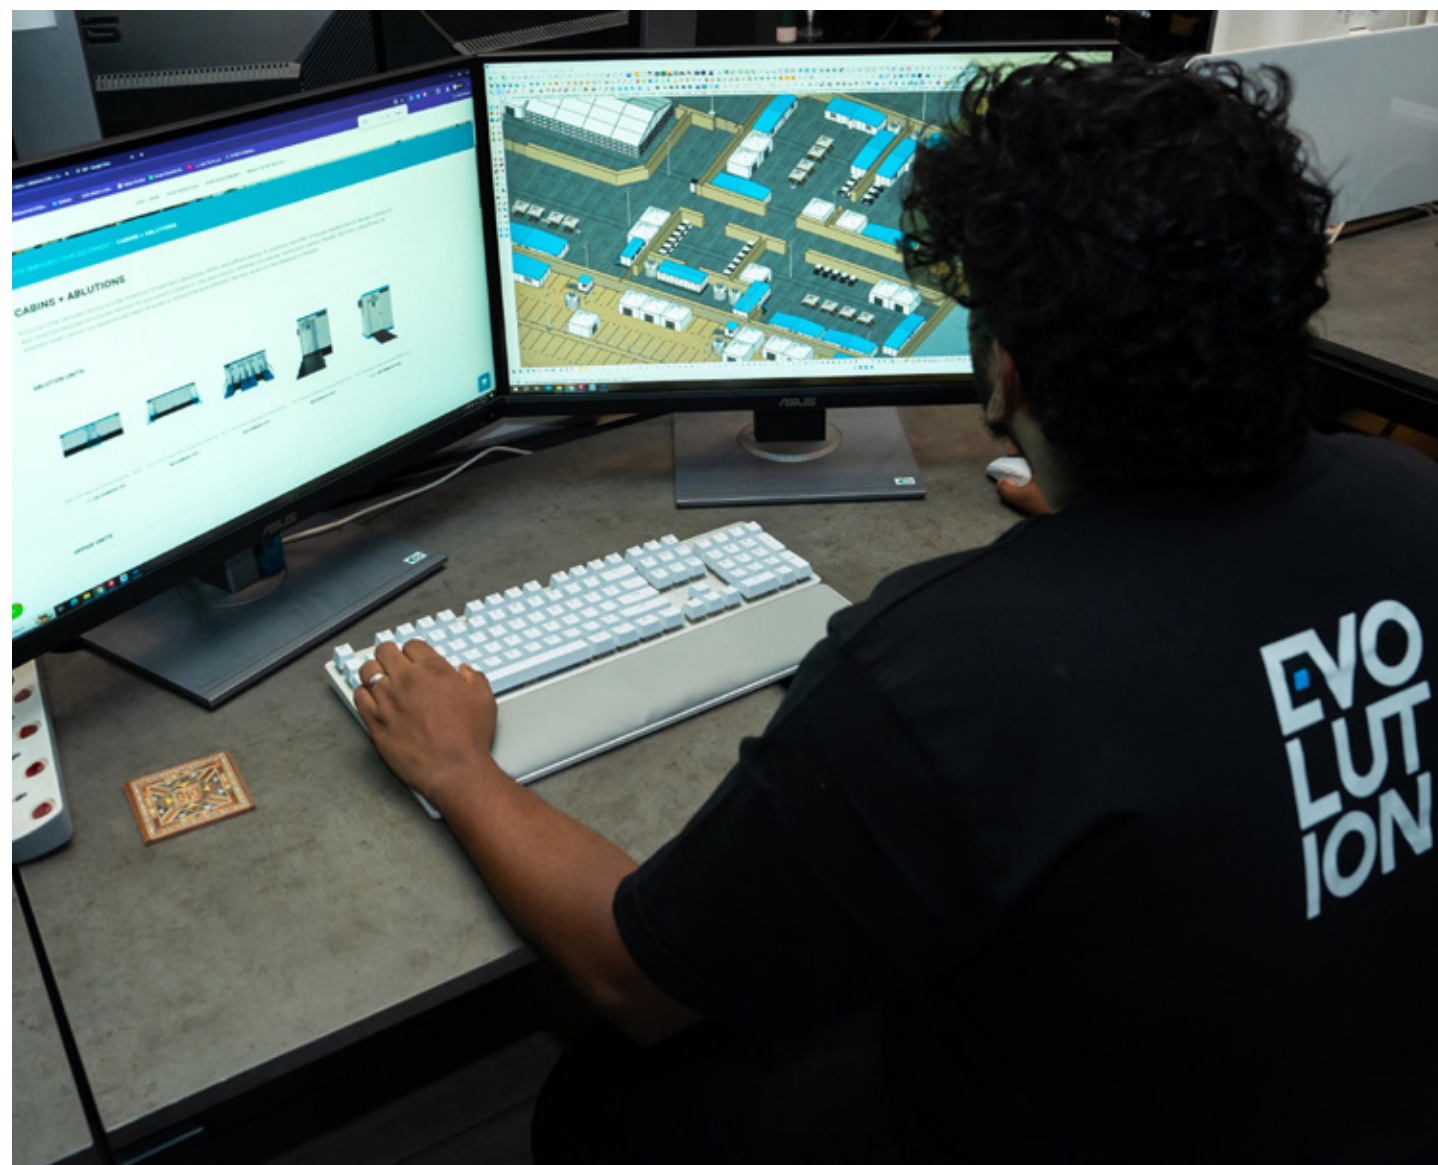

Servicing the UAE + Saudi Arabia, with the ability to support projects across the GCC

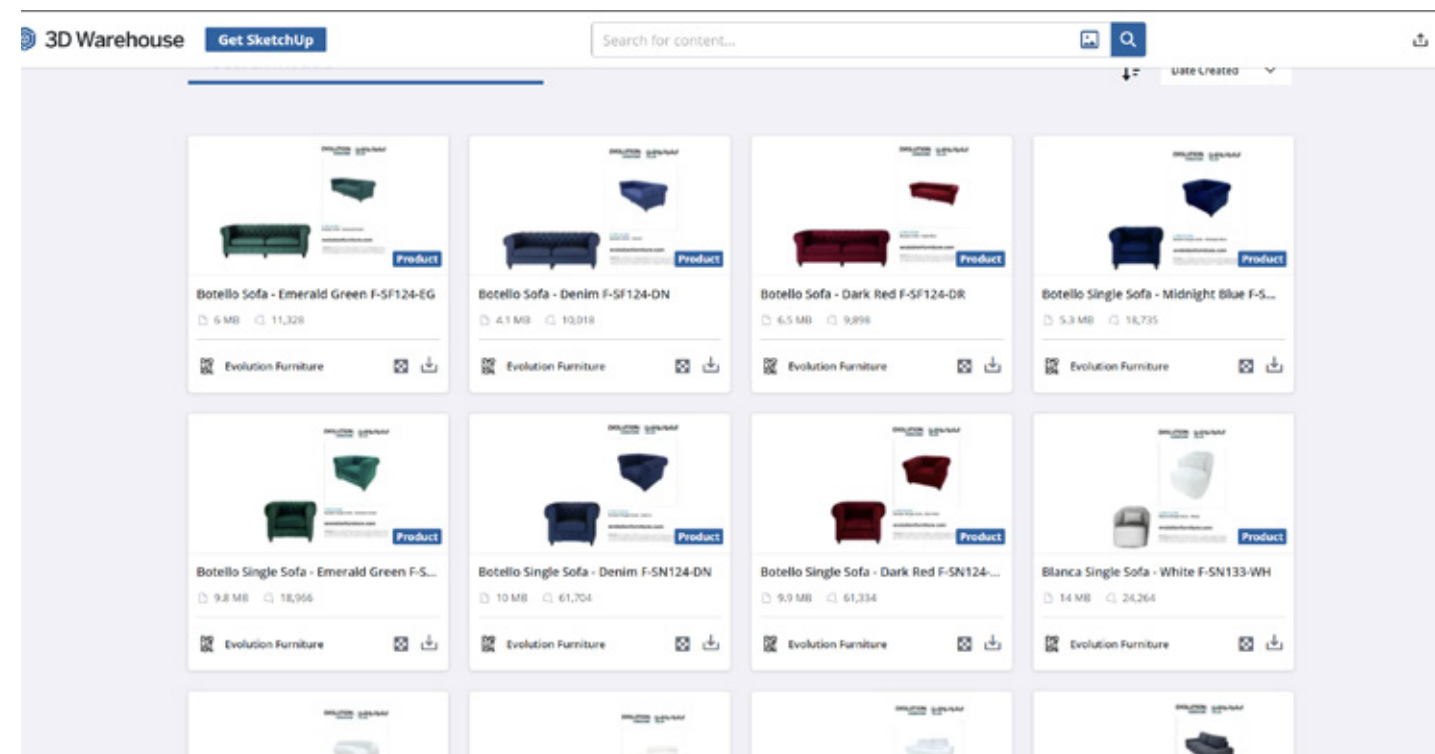

PLANNING YOUR SITE FROM THE GROUND UP

At Evolution Site Services, we don't just deliver cabins and ablution units — we help design the entire site to make sure everything works together efficiently. Our experienced team prepares detailed layout drawings, positioning cabins, ablutions, storage, and support areas to maximize space and improve site flow.

We also calculate power requirements for your site and can supply and install the generators and distribution needed to keep everything running. From a single office cabin to a large-scale festival site, our planning services ensure your infrastructure is designed correctly from the start.

We design every site with safety, efficiency, and practicality in mind — saving you time and avoiding costly mistakes.

DOWNLOADS + DIGITAL RESOURCES

STREAMLINE YOUR SITE PLANNING PROCESS

Our website and the SketchUp 3D Warehouse host a comprehensive library of our product models, each created with accurate dimensions, layouts, and detailing. This growing resource allows planners, designers, and technical teams to integrate our cabins, containers, ablution units, vehicles, and site equipment directly into their project drawings.

Whether you're developing a festival overlay, an exhibition site plan, or mapping out the logistics for a major outdoor event, these digital files make the process faster, easier, and more precise.

Our 3D library is continuously updated, providing event professionals with practical tools to visualise complete site infrastructures in advance. This not only saves valuable time but also improves coordination between stakeholders, making your planning process more efficient and reliable.

- Extensive 3D library of cabins, containers + site equipment
- Accurate dimensions + layouts for precise planning
- Easy integration into SketchUp site plans + overlays
- Continuously updated with our latest product models
- Translate plans seamlessly from design to delivery

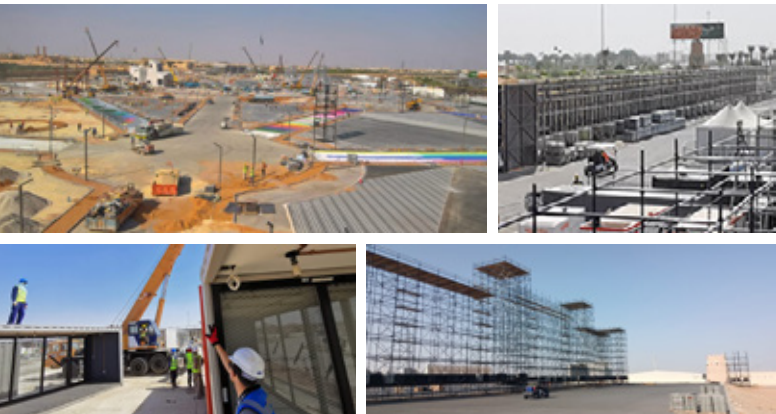

OUR WIDER SERVICES

SITE PLANNING + OVERLAY SERVICES

Comprehensive event site planning and overlay services designed to optimise layouts, utilities, and crowd movement for smooth and efficient operations.

From initial drawings to full delivery, our planners create practical solutions that make complex projects manageable, helping every stage of the build, live event, and de-rig run seamlessly.

SITE INFRASTRUCTURE MANAGEMENT

End-to-end management of cabins, ablutions, utilities, and temporary structures to deliver reliable and fully integrated event infrastructure.

We coordinate suppliers, oversee installations, and maintain strict standards to ensure your site is delivered safely, operates smoothly throughout, and is de-rigged without delays.

SITE OPERATIONS + ON-SITE SERVICES

Hands-on management of logistics, crew activity, and daily operations to keep large event sites safe, efficient, and on schedule.

Acting as the central hub, our teams streamline communication, oversee contractors, and ensure all activity stays aligned with critical deadlines and budgets.

HEALTH + SAFETY MANAGEMENT

Expert oversight of health and safety systems, ensuring compliance with regulations and protecting staff, suppliers, and guests at every stage.

From risk assessments and inductions to emergency procedures and crowd safety, we implement proven measures that minimise risk and maintain safe working environments.

CABINS + ABLUTION UNITS

Secure office cabins, toilet blocks, and storage facilities tailored to event sites of all sizes.

Options include air conditioning, power, furniture fit-outs, and accessible ablution units. With safe delivery, installation, and servicing, our cabins and ablutions keep operations running smoothly from build to de-rig.

BUGGIES, MULES + SITE VEHICLES

Golf buggies, cargo mules, and utility vehicles to keep staff, VIPs, and equipment moving across large sites.

Available in multiple seating and load configurations with branding options, our vehicles are delivered, serviced, and maintained by experienced crews for seamless event operations.

SITE FF+E

A wide range of practical furniture for back-of-house operations and staff areas.

Options include picnic benches, office desks, chairs, umbrellas, and green-room fittings. Delivered and set up to specification, our site furniture provides staff and artists with functional, comfortable spaces, supporting both guest-facing and behind-the-scenes requirements.

POWER SYSTEMS

Complete site power solutions, from distribution units to cabling and generators.

Our team designs, installs, and maintains reliable systems to keep your event running without interruption. With safe load management and site support, we ensure critical operations, site lighting, catering, and technical systems perform at every stage.

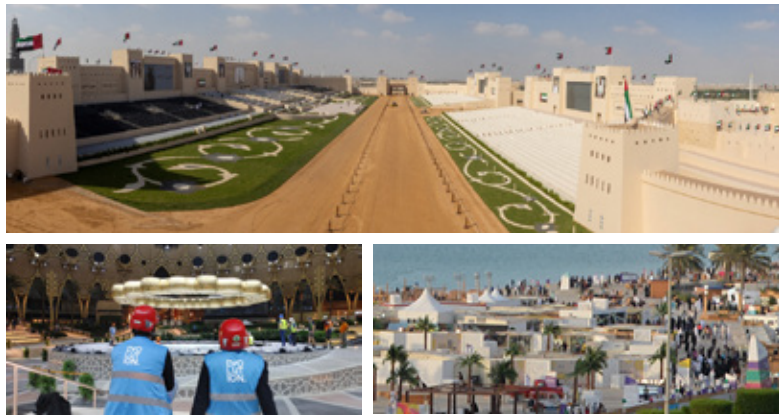

OUR WIDER SERVICES

SITE CONSTRUCTION

Large-scale construction services for festivals, exhibitions, and major outdoor events.

From building custom festival stages and grandstands to kilometres of site walling, activations, pop-ups, and bespoke signage, our teams deliver robust, tailored solutions. With skilled crews and extensive experience, we handle complex builds that bring creative and operational visions to life.

TECHNICAL SUPPORT

Audio, video, lighting, and rigging solutions designed for concerts, festivals, and large-scale live events.

From full concert rigs with staging and control systems to site-wide festoon and temporary lighting for outdoor festivals, our technical teams deliver reliable, professional solutions tailored to the needs of every project.

PLUMBING SOLUTIONS

Customised plumbing systems using tanks, hoses, and pumps to deliver water and waste services wherever they are required on-site.

From catering set-ups and temporary wash stations to livestock or specialist requirements, our team designs and installs practical solutions that go beyond standard ablution facilities, keeping every part of your event fully serviced.

TRAFFIC MANAGEMENT

Design and operation of traffic systems to keep entry, exit, and parking areas efficient, organised, and safe.

From access planning to on-site control, our teams manage vehicle movements with precision, reducing congestion and ensuring a smooth flow for staff, suppliers, and guests.

FENCING + BARRIERS

Secure and flexible barrier systems including Heras fencing, pedestrian barriers, Mojo barriers, water barriers, and concrete barriers.

We also provide the option to add branded covers to your barriers or heras fencing along with a range of shade net finishes, giving you practical or polished solutions as needed. All systems are delivered, installed, and removed by our experienced crews to ensure safety and reliability on every site.

SITE LIGHTING

Comprehensive temporary lighting solutions designed to enhance visibility, safety, and security across event compounds, access routes, and guest areas.

Our tower lights, floodlights, and functional systems are installed and serviced by trained crews, ensuring reliable illumination across your entire site.

SAFETY EQUIPMENT

Rental and retail supply of essential safety gear, from cones and spill kits to first aid and eye wash stations.

We also provide PPE, gloves, and safety batons to keep sites compliant and staff protected. With reliable stock and fast deployment, we ensure your event runs safely and without interruption.
