THE TOUGH STUFF

MADE EASY

EVOLUTION.

EVOLUTION.

SITE SERVICES

Our team benefit from decades of international experience and extensive local knowledge. We are planners, builders and creative problem-solvers, delivering excellence in site management and operations.

Evolution's longstanding relationships with a diverse network of trusted partners and government entities are key to managing the complexities of large public and private events.

**DETAILED.
PREPARED.
DRIVEN.**

WE GOT THIS...

We deliver more than equipment rental. Our passionate team of certified, experienced site-managers and technical consultants collaborate with clients to establish a detailed scope of work, a comprehensive set of requirements, and a plan to deliver on every aspect. To support the planning process, we work with our in-house designers to create detailed drawings and render mock-ups that bring ideas and possibilities to life.

Our approach is comprehensive. We believe it's our responsibility to go beyond providing equipment and infrastructure to ensure we deliver every aspect of a functioning site. Our cross-disciplinary team will work together to ensure you have the staff, support, resources and logistics in place to keep your site running efficiently.

THINKING BIG... AND SMALL.

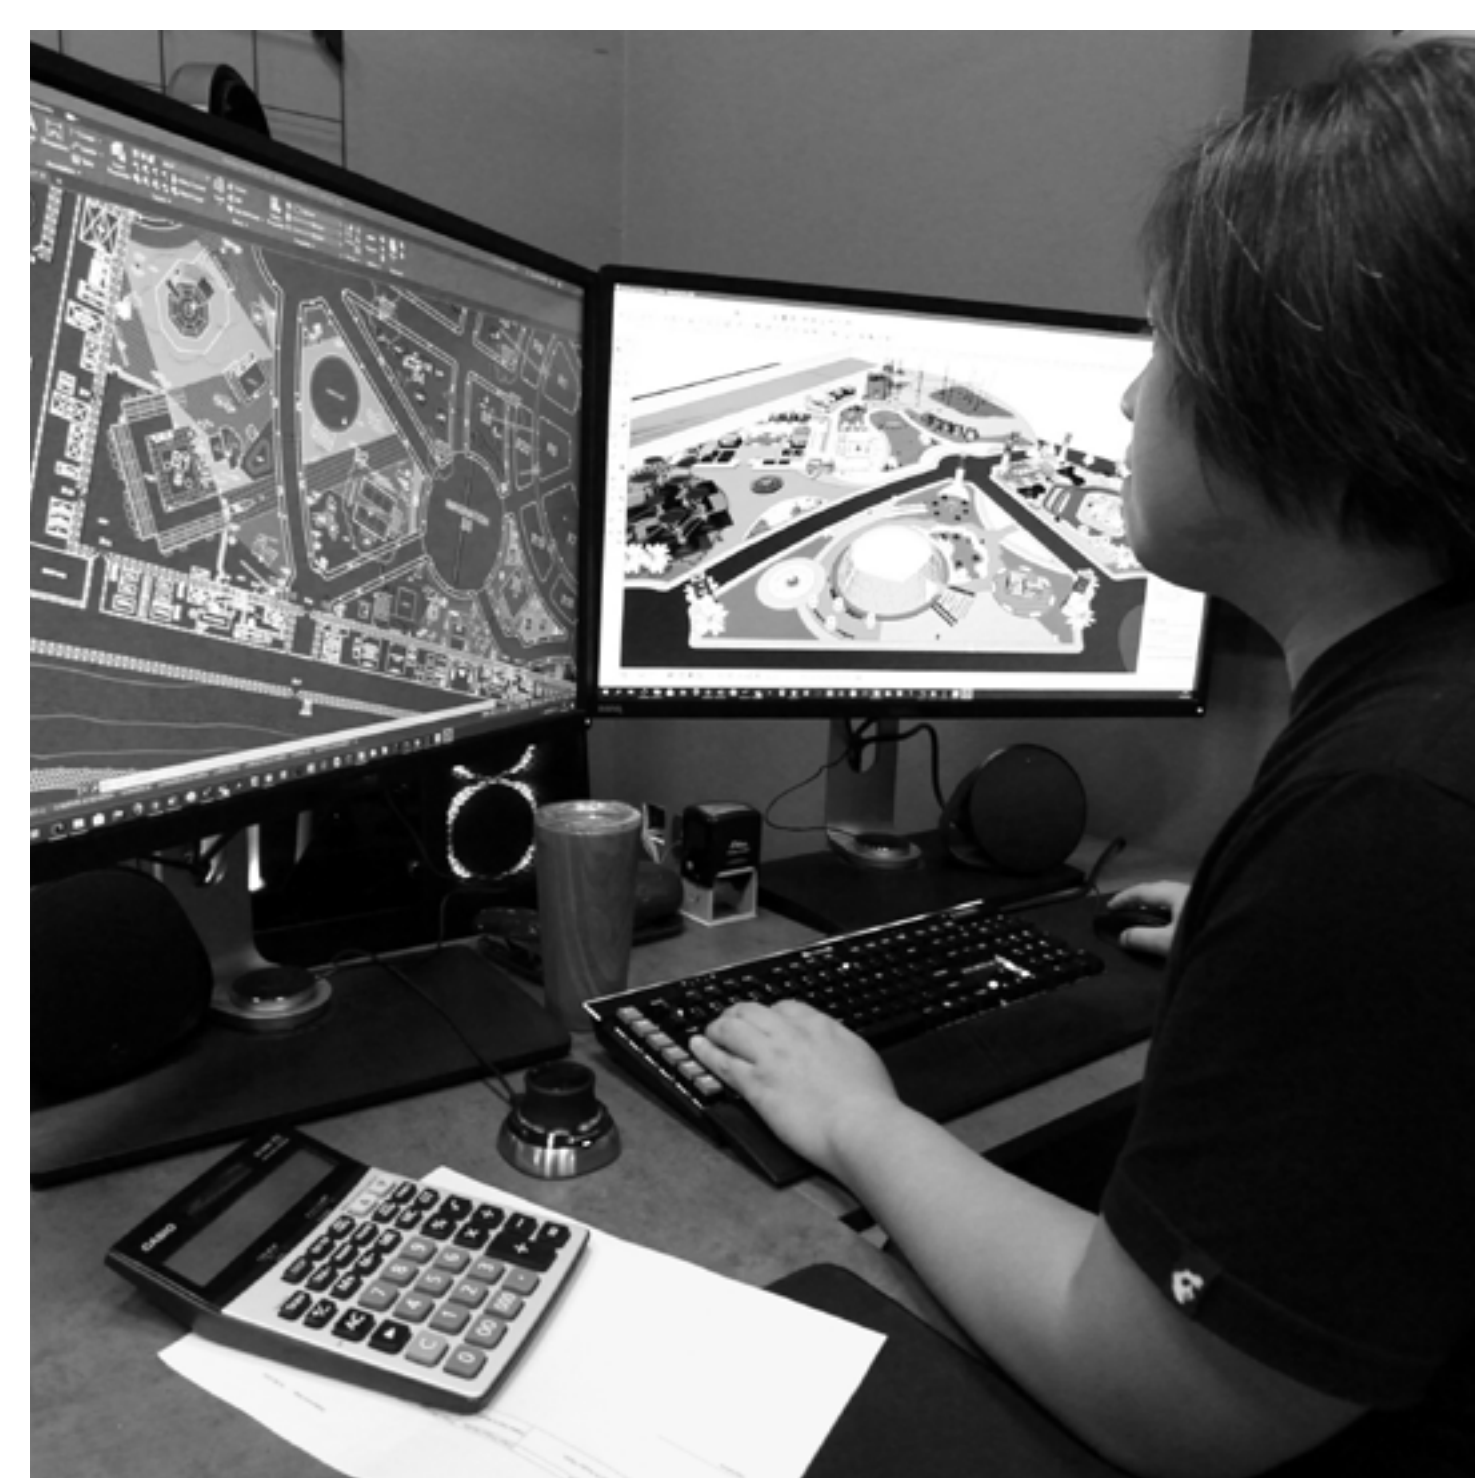

No matter the size of the event, you can rely on Evolution's Site Services team to think of every detail and plan for every eventuality, at any scale.

Our multi-disciplinary teams work together throughout the planning process to ensure that infrastructure, equipment, operators, support staff, supply chains, logistics, fencing, access points, and every single detail is accounted for.

Resilient site and operation plans with the capacity to be responsive to changing requirements are the foundation of Evolution's successful approach.

WE LOVE IT WHEN A PLAN COMES TOGETHER...

Ambitious ideas require meticulous planning. We know that for things to go right we need to be aware of everything that can go wrong. So we measure, plot, schedule, trial, survey, test, organise, diagram, and strategise for all scenarios in order to guide your project towards success with a robust and functional plan.

We draw on the diverse experience of the entire Evolution team to map out every possible detail, because while we can't predict the future we want to be as prepared as possible for anything it may throw at us.

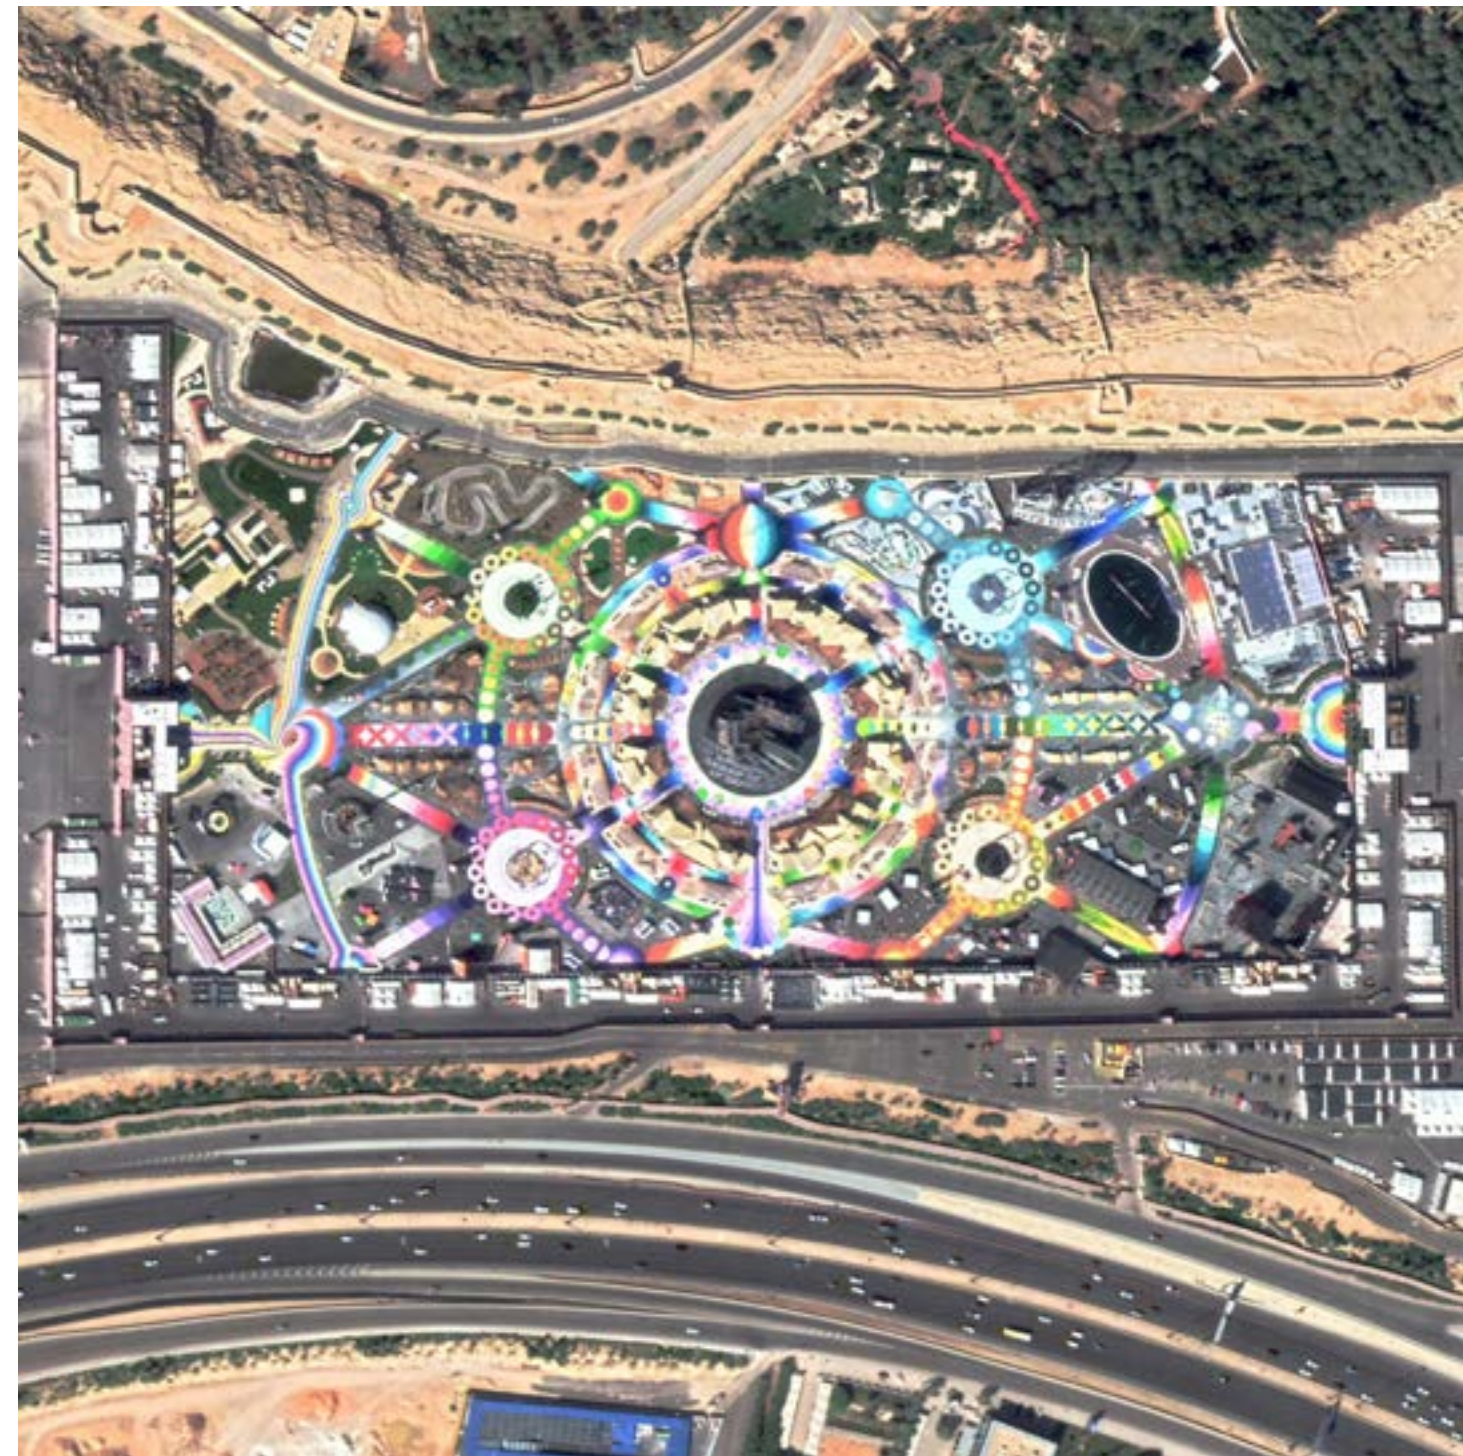

WE BUILT THIS CITY.

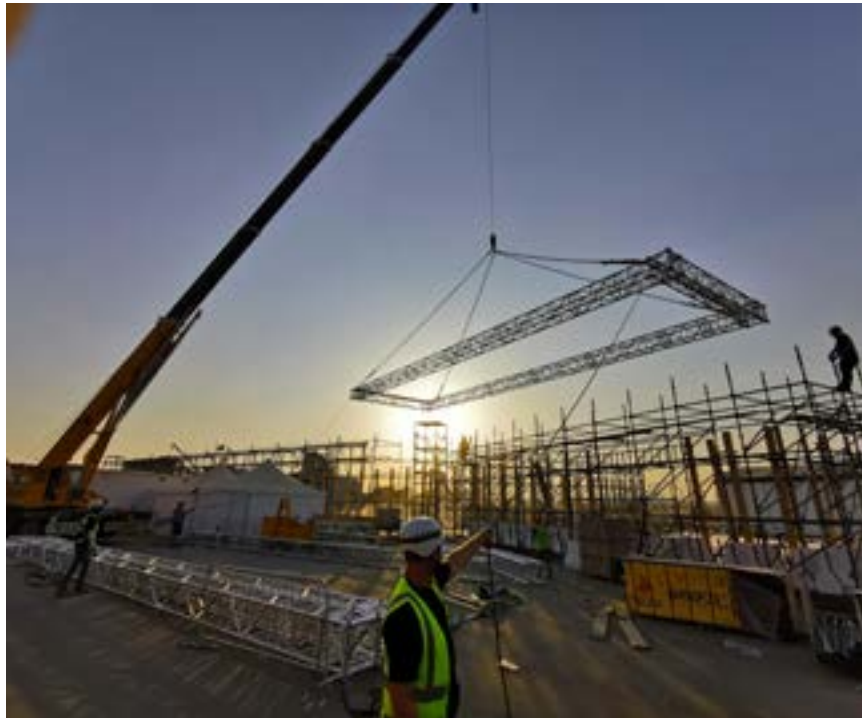

Our team has managed and delivered some of the largest and most complex events in the region, often within 'impossible' time frames.

The build of Diriyah Oasis was an epic challenge, with less than 90 days from the start of the design process to opening day, a car park of over 130,000 m² was transformed into a fully functioning, customised site.

The size and complexity of the build and the time frame for delivery demanded military-like levels of planning, efficiency and coordination. Evolution were responsible for over 100,000 m² of the site and BOH areas which included the delivery of landscaping, ground works, power distribution, site lighting, customised fencing, site vehicles, scaffolding, heavy site machinery, office cabins, ablutions, temporary structures, scenic fit-out, technical support, customised furniture, coordination, planning, H&S and site management, as well as operation of the overall event.

We can do big, and we do it well!

GIVE ME SHELTER.

TEMPORARY BUILDINGS

We offer a wide range of temporary structures for events in all shapes and sizes; expertly and rapidly assembled.

Whether you need a fast food outlet, production office, ticket booth, site kitchen, green room, retail outlet, pop-up restaurant, ablution unit or temporary mosque, we have you covered.

Working with our design, scenic and furniture teams, we can also provide you with options for custom structures, interior fit-outs or branding solutions.

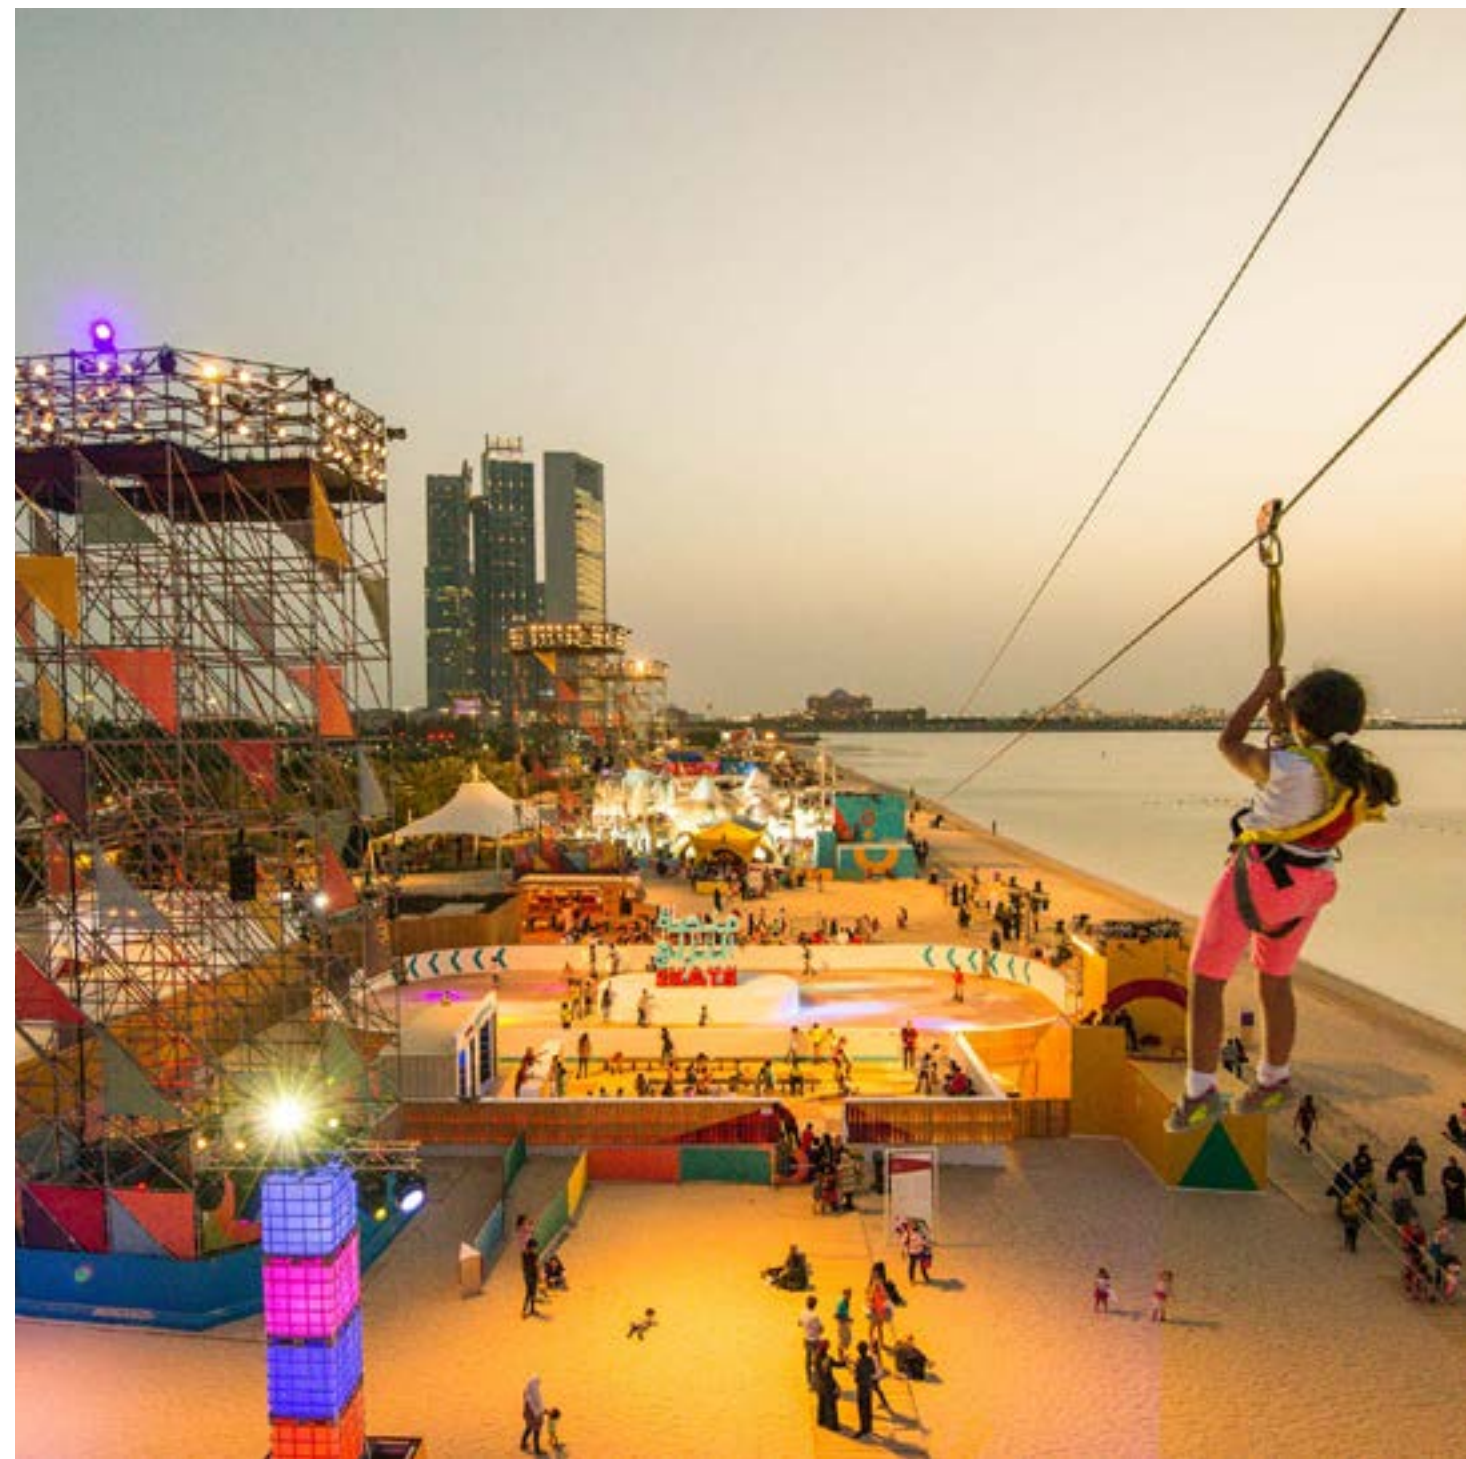

TAKE A LOAD OFF...

EVENT FURNITURE

We offer a wide range of furniture options to suit your requirements from F&B seating, green room furniture and site office requirements to VIP majlis sofas and conference furniture.

As well as the extensive choice available from our in-house inventory, we also provide custom furniture designed and produced exclusively for your event.

To ensure your furniture arrives in pristine condition, each item is cleaned and sanitised before delivery.

WHEN **HEAVY** HANDS NEED TO LEAVE **A LIGHT TOUCH.**

While we work with heavy machinery and wear hard hats, when we plan your site, we aim for great form as well as great functionality. In collaboration with our designers we work to create attractive inviting spaces for your guests.

When it comes to temporary buildings, we liaise closely with our furniture rental and bespoke production and design teams to deliver custom fitted and furnished solutions.

SMOOTH OPERATORS.

PERSONNEL

As site service providers, our job doesn't end with the hardware. It's crucial that we provide you with all the people, in every area of expertise required, to make every element of your site work and cover every aspect of the guest experience.

With years of experience recruiting for events in the region and a long-established network of local partnerships, we are uniquely positioned to recruit the best-matched and most professional staff for all of your site and event needs.

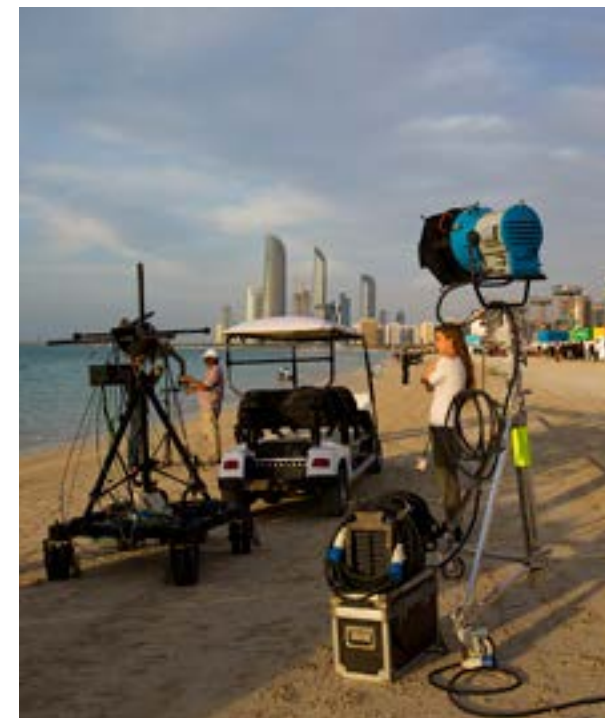

RIDE IN STYLE.

ELECTRIC GOLF BUGGIES

Our golf buggies offer an ideal brand immersion opportunity for your guests, as well as being a functional, attractive transport solution for VIPs, staff and crew.

You'll love getting your team and supplies around site with these zippy little vehicles. As well as being compact they are reliable, presentable and easy to maintain and operate.

We'll work with you to design and implement unique and memorable branding and finishing details for a fully customised guest experience.

GETTING AROUND.

SITE VEHICLES

For all your site transport needs, Evolution has the equipment you need.

Off-Road bikes with hop-on hop-off stations provide an energy efficient solution for getting your team around larger sites, while a full suite of other rental options is available for heavier-lifting; from Kawasaki's to access equipment.

We don't offer half solutions so if you need us to provide you with operators to operate the heavier machinery for you, we'll arrange that too.

WALK THIS WAY.

FENCING & CROWD CONTROL

From calculating fencing, to establishing crowd-control procedures, our operations team will ensure that all measures are in place for the optimal movement of people around and within your event site, safely.

Our site management team liaise closely with our guest services, security, traffic-control and valet teams to ensure the smooth access and flow of guests into and around each event site.

KEEPING THE FLOW.

LOGISTICS AND TRAFFIC MANAGEMENT

Our team's experience in planning and implementing traffic management and logistic solutions for our events set us apart.

We deliver a complete on-site logistics solution; mapping out routes, establishing access points, calculating vehicle-transport volume and frequency requirements as well as providing signage and way finding for our guests.

We also offer premium transportation and valet services where required, ensuring the highest standard of service for our guests and VIP's.

POWER TO THE PEOPLE!

POWER DISTRIBUTION, DESIGN AND GENERATION

Whatever the size of your site and power needs, Evolution will carefully and accurately assess your requirements and ensure power is distributed safely and efficiently throughout your site. Our technical consultants will design tailored power solutions and layouts for any and all event requirements.

We design for adaptability to ensure we are able to respond rapidly to changes.

Once it's all up and running we'll make sure it keeps running. We provide on-site technicians as standard and ensure that our mechanics have access to essential spare parts on every site and all the support they need.

WHO NEEDS SLEEP ANYWAY?

SITE LIGHTING

Events are a 24/7 business and work doesn't stop just because the sun goes down. We will carefully design and supply the most cost-effective lighting solutions for your specific site requirements.

Our extensive inventory includes a full range of efficient and effective site-lighting options.

SAFE, SECURE, CONFIDENT.

HSE SOLUTIONS

Our H&S advisors have extensive local and regional knowledge, experience across a broad spectrum of event types, from small conferences to large scale festival events. With a teach not preach approach we offer guidance rather than becoming a hindrance, enabling our teams & our third-party contractors to achieve their goals both efficiently and safely.

YOU GOT ALL THAT?

EVOLUTION SITE SERVICES

Evolution Site Services will work closely with you to carefully plan, budget and design your site. We have the technical expertise and resources to supply a wide range of equipment and infrastructure needs.

From inception to implementation and collection we aim to deliver a turnkey solution for your event, making sure the resources, staff and processes are in place to keep it all running smoothly.

We also work with our in-house design, fit-out and furniture teams to make sure we deliver a complete end-to-end service when required.
